

Fuelling news and innovation in motor and pump technology

Welcome to **EnergEtalk**, bringing you the latest news and information from Hayward Tyler.

News

Another special award for Hayward Tyler

Hayward Tyler has received a special award to commemorate **100 years** membership of the Chamber of Commerce in England. Records show that Hayward Tyler is the oldest and longest serving member of the business support group.

Record Orders

Hayward Tyler has had a fantastic 2007. We have received awards, taken our products all over the world and have record order book levels. There is no secret to the Company's success - it is simply down to outstanding products, built and designed like no other. Underpinning this success are our personnel. Dedicated and skilled teams of people work together to deliver prime quality goods. You can find out more about some of our important [news](#) on our website.

New offshore order for Varley Pumps

Rotary Gear Pump manufacturer, Varley Pumps, a division of the Hayward Tyler Group – a leading manufacturer, supplier and service repairer of pumps and motors – is pleased to announce that it has received a significant Malaysian order from Inovatif Erat Sdn Bhd (IESB) for three Closed Drain Transfer Pumps (CDTP) for use on an off-shore oil & gas rig in the South China sea. Special events

New event talks now available to view online

The first talk we gave was at the **Deep Offshore Technology** show in Norway on 10-12th October. We gave oil and gas experts an insight into the design of the largest subsea motor ever built. You can **view the talk in full** on our event website, <http://www.haywardtylerevents.com/>. Alternatively why not request the talk on a CD and we will send this to you to view at your leisure. Contact marketing@haywardtyler.com.

The second talk was given at the **Central European Power Show** in Warsaw, Poland, which ran from 17th to 19th October. We gave our award winning talk on "*How to improve power plant performance through pump upgrades*". Again, you can view this on our event website or request a CD.

People

We would like to welcome **Darren Cowley** as Oil and Gas Market Development Manager, based in our Luton office. Darren will play a key role in strengthening our position in the overseas oil and gas markets, in particular China and Norway.

We are also pleased to announce that **Brian Millward** has taken up a new role as Technical Director. Brian has been managing our UK engineering team since 2005 and will now head up a central engineering team dedicated to provide technical support to key areas of the business across the Group and develop new and improved products.

We also welcome **Steve Casale** as Sales & Marketing Manager for HT, Inc. Steve will be responsible for all of the Sales and Marketing functions, field service, outside sales, sales reps and distributors, parts administration, and application engineering.

Finally **Rob Rolland** has joined HT, Inc. as Applications Engineer for HT, Inc. Rob will be developing proposals for equipment in customer applications. Rob has 24 years of experience with contracts for the U.S. government, petroleum companies, international, military and communications industries.

Services

Steam Turbine Upgrades

Hayward Tyler can provide an upgrade service that will bring significant benefits to the life of steam turbines. Our service and aftersales division can improve the efficiency and reliability of Hayward Tyler turbines and a range of other OEM's. To find out more about this service please call our service team on +44 (0) 1582 731144 or visit our [website](#) and download our information sheet.

Customers confirm HTI Boiler Water Circulating Pumps are the Premier Choice

Hayward Tyler, Inc. can offer complete boiler water circulating pump conversions for global enterprises in 2008. These include, but are not limited to, Ingersoll-Rand, Westinghouse and FUJI pumps. These pumps will be converted to Hayward Tyler's successful BWCP product line.
