

Fuelling news and innovation in motor and pump technology

Welcome to **EnergEtalk**, bringing you the latest news and information from Hayward Tyler.

News

July 2008

New Group Managing Director appointed

We are delighted to announce the appointment of David Boughey as Group MD. David replaces Gary Wearing who left the Group after 27 years service in December 2007. The role had been held on an interim basis since then by Terry Playle until the Board filled the role. [See full story](#)

Competition to celebrate 100 years of subsea motor technology

This year we are celebrating 100 years since developing the first subsea motor. Our promotions include a competition to win two fantastic prizes. [Click here](#) to find out more and enter now.

Nuclear customers see benefits from renewed and expanded N-Stamp capability

In March, 2008, Hayward Tyler Inc. underwent its three year compliance audit by ASME, the American Society of Mechanical Engineers. Hayward Tyler proved its commitment to the Nuclear Industry by renewing its N Stamp (Nuclear Vessels, pumps, valves, piping systems,) NA stamp (shop assembly,) and NPT stamp, (fabrication with or without design responsibility, for nuclear appurtenances and supports, and as a material organisation.) Ken is a qualified mechanical engineer, having graduated with first class honours in automotive engineering at Loughborough University. Ken has authored and presented many papers at international conferences, has appeared on radio and television, served on industry committees and is the inventor of several patents employed in industry. Ken is also a member of both the Institution of Mechanical Engineers and the Society of Automotive Engineers and is a Visiting Professor at Kingston University, London. [See more](#)

General Manager – Hayward Tyler Pumps (Kunshan) Ltd, China

We are pleased to announce the appointment of Mary Song as General Manager of HTPKL. Mary has recently gained her MBA from the China Europe International Business School. This included an exchange study programme at the Copenhagen Business School in Denmark. Mary holds a Bachelor Degree of Engineering in Automation gained whilst at the Shanghai University of Electric Power. Mary has also held a number of roles in industry including Director of Business Development at XJ Group, Manager of Engineering Department at Wescon Controls (Shanghai) and was an engineer at the Shanghai Institute of Electrical Power Commissioning & Testing between 1996 & 1998 and took part in the construction of four large coal fired power plants.

Services

Spare Parts

Hayward Tyler has a dedicated spare parts facility for our own and other OEM pumps, motors and turbines. We can also offer the possibility of overnight manufacture of parts for dispatch the next day. We also manufacture parts, under license, from other highly regarded companies and we retain intellectual property, drawings and manufacturing data for a vast range of heritage equipment. Our specialist 3D modelling software enables us to verify dimensions, materials and heat treatments for components or obsolete parts and can offer warehousing facilities where parts are required at short notice.

For a quotation email spares@haywardtyler.com or call +44 (0)1582 731144.
